STERNKREUZ-Mineralgläser und STERNKREUZ-Mineralglasplatten sind - mit Ausnahme der Großuhrgläser MMG - gegen Bruch chemisch gehärtet. Diese Eigenschaft kann man den Gläsern nicht ansehen. Sie ist aber für die problemlose Verarbeitung außerordentlich wichtig. Durch einen in der Herstellung genau überwachten Ionenaustausch sind die Gläser hoch gespannt. Sie können dadurch einen starken Schlag mit Durchbiegung vertragen und die Platten können auf den Kopiermaschinen, wie KRONOGLAS, gut bearbeitet werden.

Achten Sie daher bitte immer auf das Markenzeichen STERNKREUZ.

STERNKREUZ-mineral glasses and STERNKREUZ-mineral glass plates are - with the exception of the glasses for alarm clocks MMG - chemically tempered against breakage. This property cannot be seen when looking at these glasses. However, it is very important for the manufacture without any problems. Due to ionic exchange which is well controlled during the manufacture, the glasses are highly stressed. Therefore they are shock-resistant and the plates can be processed wet on the copying machines, i. e. KRONOGLAS.

Therefore we ask you always to pay regard to the trade mark STERNKREUZ.

Andere Abmessungen mit runden innenliegenden Lupen können gegen Mehrpreis von der Fabrik hergestellt werden.

Den notwendigen Lupenabstand misst man mit der Lupenlehre.

Any other sizes with round interior lenses can be supplied at a small surcharge.

The necessary distance of the lens is measured with the lens gauge.

Bei Stülpgläsern ist die Fußstärke  $([a-b] : 2)$  entscheidend für den festen Sitz im Gehäuse. Beachten Sie bitte, daß es zu kurannten Außendurchmessern verschiedene Innendurchmesser (also verschiedene Fußstärken) gibt.

With top glasses, the thickness of the base determines the tight fit in the case. Please note that there are different inside diameters (i. e. different thicknesses of the base) for one and the same outside diameter.

Hanhart

Hanhart Kal. 1021

Für die richtige Auswahl von Stülpgläsern müssen Sie zusätzlich den notwendigen Innendurchmesser genau messen.

For the correct choice of top glasses one has to measure the appropriate inside diameter carefully.

# Rund-Sonderform Kunststoff Kapselgläser Round Special Forms Plastic Capsules

»STERNKREUZ«

**XK**

**KAPSELGLAS  
CAPSULE GLASS**  
Rundglas-Sonderform  
Special form round

**Kapseln** sind Uhrgläser, die gleichzeitig ganz über das Gehäuse herüberfassen und für die Aufzugwellen oder Drücker entsprechende Bohrungen aufweisen. Sie sind immer nur für das eine Gehäuse verwendbar, für welches sie konstruiert wurden. Der Einbau geschieht in der Regel von Hand.

**Capsules** are watch glasses which reach over the sides of the case and have holes for the winder or press-button. They can only be used for the specific case they have been designed for. They are usually fitted by hand.

## Form Kunststoff – Fancy Plastic

STERNKREUZ verfügt über das größte Sortiment an Kunststoff-Formgläsern, das auf der Welt existiert. Auf den nachfolgenden Seiten finden Sie die vier verschiedenen Arten, das System für Formgläser und eine Auflistung der lieferbaren Typen.

STERNKREUZ disposes of the largest assortment of plastic fancy glasses existing in the world. On the following pages you will find the four different kinds of glasses, the system for fancy glasses as well as a list of the available types.

Standard-Formgläser haben einen rohen Rand und können mit der Feile leicht auf kleinere Maße gebracht werden. Sie sind 1,0 - 1,5 mm dick.

Standard fancy glasses have got a crude border and they can easily be reduced in size with the file. They are 1,0 - 1,5 mm thick.

Konkav-Formgläser haben einen umlaufenden Fuß und können in ihren Maßen praktisch kaum noch verändert werden.

Concave fancy glasses have got a surrounding foot and their dimensions practically cannot be changed any more.

Optik-Formgläser haben eine zylindrische Oberfläche. Sie sind verhältnismäßig dick.

Optic fancy glasses have got a cylindrical surface. They are comparatively thick.

Spezial-Formgläser sind weitgehend Unterleggläser. Sie finden sie am Ende der Listen

Most of the special fancy glasses are underlaid glasses. You can find them at the end of the lists.

# Das STERNKREUZ-System für Formgläser

## The STERNKREUZ System for Fancy Glasses

Fünf Sorten Formgläser bietet das STERNKREUZ-Sortiment. Sie unterscheiden sich durch den Querschnitt und die Materialstärke. Sie sind in den Bildern dargestellt:

Standard-Formgläser - weiße Tüten in Schwarzdruck

Optik-Formgläser - weiße Tüten in Rotdruck

Konkav-Formgläser - weiße Tüten in Gründruck

Unterleg-Formgläser - weiße Tüten in Gelbdruck

Mineral-Formgläser - gelbe Tüten in Rotdruck

Häufig finden Sie eine lieferbare Abmessung in zwei verschiedenen der obigen Sorten oder auch drei. Deswegen ist es wichtig, dass Sie bei der Bestellung angeben, welche Sorte Sie wünschen.

Darüber hinaus gibt es Spezialformgläser, die jeweils nur in einer Sorte lieferbar sind. Sie sind als Unterleggläser in weißen Tüten mit Gelbdruck, als LED oder LCD-Formgläser in durchsichtigen Tüten und als Talonformgläser bzw. Platinen in weißen Tüten mit Gründruck verpackt.

Das wichtigste Unterscheidungsmerkmal für die verschiedenen Formen sind große Buchstaben. STERNKREUZ unterscheidet die folgenden:

R = Rechteckform	E = Ellipsenform
T = Tonnenform	D = Dreieckform
B = Ballenform	H = Hufeisenform
L = Laternenform	G = Geigenform

Quadratische Gläser sind in dem Buchstaben „R“ einsortiert. Man erkennt sie an den zwei gleichen Abmessungen.

Bei Formgläsern gibt es eine plane Auflage, eine zylindrisch gewölbte Auflagefläche oder eine kugelförmige. Gläser mit planer Auflage haben keine besondere Kennzeichnung. Es gelten:

Z für eine zylindrisch gewölbte Auflagefläche (zwei Seiten gewölbt)

X für eine kugelförmig gewölbte Auflagefläche (vier Seiten gewölbt)

Gläser mit schrägen oder runden Ecken oder andere Abwandlungen sind im Katalog in Grundformen einsortiert. Für die Bestellung werden sie mit kleinen Zusatzbuchstaben gekennzeichnet:

r = nach außen runde Ecken	e = gleichschenkliges Sechseck
s = schräge Ecken	a = gleichseitiges Achteck
g = gerade Flanken	y = asymmetrisch
i = nach innen runde Ecken	

Der letzte Teil der Bestellbezeichnung sind die Maße in zehntel Millimetern, jedoch abgerundet auf jeweils 0 oder 5, um nicht zu viele Maße zu erhalten.

Eine Ausnahme bilden die quadratischen Gläser R und RX. Diese beiden Sorten sind in der Ausführung "Konkav" in den Abmessungen von 140 x 140 bis 260 x 260 in allen 1/10 mm lieferbar, d. h. z. B. 140 x 140, 141 x 141, 142 x 142 usw.

Alle Formgläser sind im Katalog in Tabellenform aufgeführt. Das „X“ rechts in den Spalten zeigt jeweils, in welcher Ausführung die Gläser lieferbar sind, d.h. Standard, Optik oder Konkav.

Eine Bestellung muss folgendes enthalten: Stückzahl, Glassorte, Kennbuchstabe: Glasgröße z.B. 10 Stück Konkav T 210x230x 160.

Maße, die nicht im Katalog enthalten sind, können in vielen Fällen in Sonderanfertigung geliefert werden. Dabei ist jedoch eine entsprechende Lieferzeit zu berücksichtigen.

# Das STERNKREUZ-System für Formgläser

## The STERNKREUZ System for Fancy Glasses

Five types of fancy glasses are offered by the STERNKREUZ assortment. Their differences result from the section and the material thickness. They are presented in the illustrations:

- Standard fancy glasses - white bags in black print
- optic fancy glasses - white bags in red print
- concave fancy glasses - white bags in green print
- underlayered fancy glasses - white bags in yellow print
- mineral fancy glasses - yellow bags in red print

You will often find one available dimension in two or even three different kinds of the a. m. types. Therefore it is important that in your order you indicate which type you would like to have.

Moreover there are special fancy glasses, which are always available in one type only. They are packed as underlayered glasses in white bags with yellow print, as LED- or LCD-fancy glasses in transparent bags and as talon - glasses respectively plates in white bags with green print.

The most important characteristic to distinguish the different shapes are capital letters, STERNKREUZ make use of the following.

- |                       |                      |
|-----------------------|----------------------|
| R = Rectangular shape | E = Elliptic shape   |
| T = Barrel shape      | D = Triangular shape |
| B = Bale shape        | H = Horseshoe shape  |
| L = Latern shape      | G = Violin shape     |

Square glasses are classified in the letter "R". They are to be recognized at the two same dimensions.

Concerning fancy glasses there is a plane support, a cylindrically domed or a globularly domed support. Glasses with plane support do not have any special marks. The following is

- Z for cylindrically domed support (two sides domed)
- X for a globularly domed support (four sides domed)

Glasses with straight cut or round corners or other variations are mentioned in basic shapes in the catalogue. For your order they are marked with small additional letters:

- |                          |                         |
|--------------------------|-------------------------|
| r = round corners        | e = isoceles hexagon    |
| s = straight-cut corners | a = equilateral octogon |
| g = straight flanks      | y = asymmetrical        |
| i = convex corners       |                         |

The last part of the order designation are the dimensions in tenth millimeters, however, rounded off to 0 or 5, in order not to get too many dimensions.

An exception is made by the square glasses R and RX. These two types are available in the execution "concave" in the dimensions from 140 x 140 to 260 x 260 in every 1/10 mm, e. g. 140 x 140, 141 x 141, 142 x 142 etc.

All fancy glasses are mentioned in the catalogue in a tabular way. The "X" right in the columns show in which execution the glasses are available, i.e. standard, optic or concave.

The following should be indicated in an order: quantity, type of glass, identification letter, glass size, e.g.:  
10 pieces concave T 210 x 230 x 160.

Those measures which are not contained in the catalogue can in many cases be made in a special fabrication. But in such a case you have to take into account a corresponding delivery time.

# Dichtungen – Gaskets

## STERNKREUZ- Dichtungsringe, rund

Viele Uhren enthalten Dichtungen am Gehäuseboden, bisweilen auch am Glassitz (Unterleggläser). Hierfür hält STERNKREUZ ein umfangreiches Sortiment an Dichtungsringen bereit, einzeln verpackt oder auch in Sortierungen. Folgende Dichtungsringe sind lieferbar:

### STERNKREUZ-Gaskets round

Many watches have gaskets at the bottom of the case, sometimes also at the rim of the glass (underlayered glasses). STERNKREUZ keep a comprehensive range of the gaskets, either packed individually or in assorted sizes. The following gaskets are available:

I-Dichtungen für Mineralgläser - hochwertige, schrumpffreie weiße elastische Dichtungen.

Bestellmaß ist der Außendurchmesser des Ringes, in 10tel Millimeter.

I-gaskets for mineral glasses - height-class, shrinkless white elastic gaskets.

The order size is the external diameter of the ring, in tenth millimetres.

I-Dichtungen /Gaskets 140-340 - Höhe / height 0,8, Stärke / thickness 0,35 mm  
alle Nummern lieferbar/all numbers available.

I-Dichtungen / Gaskets 250-327 - Höhe / height 1,2 mm Stärke / thickness 0,4 mm  
alle Nummern lieferbar/all numbers available.

L-Dichtungen für Mineralgläser - hochwertige, schrumpffreie weiße elastische Dichtungen.

Bestellmaß ist der Außendurchmesser des Ringes.

L-gaskets for mineral glasses - high-class, shrinkless white elastic gaskets.

The order size is the external diameter of the ring.

L-Dichtungen/Gaskets 175, 180, 185...-365  
alle 0,5 mm lieferbar/all 0,5 mm available

**O-Dichtungen** = Rundschnurringe aus dauerelastischem Kunststoff, schwarz, für Gehäuseabdichtungen. Das erste angegebene Maß ist der Innendurchmesser, das zweite die Schnurstärke.

**O-gaskets** = extruded string rings made of permanent elastic plastics, black, for case seals. The first size is the inner diameter, the second is the thickness of the strings.

# Dichtungen – Gaskets

**Flachdichtungen** rund aus Kunststoff-Folie, rot, für Unterleggläser und Bodenabdichtungen. Die beiden in der Tabelle aufgeführten Durchmesser sind die Bestell-Durchmesser; u. zwar Innendurchmesser/Außendurchmesser.

**Round flat gaskets** of plastic sheets, red, for underlaid glasses and bottom seals. The two diameters mentioned in the table are the order diameters, i. e. inner/outer diameter.

Flachdichtungen liefern wir außerdem in Sonderabmessungen. Bei Bedarf geben Sie uns bitte das gewünschte Maß bekannt, damit wir prüfen können, ob diese Größe vorhanden ist.

Furthermore, flat gaskets are also available in special dimensions. In case of demand please inform us of the required measurement, so that we can check whether it is available.

# Weckergläser rund und Großuhrengläser

## Glasses for alarm clocks round

STERNKREUZ liefert runde Weckergläser, sowohl aus Mineralglas unter der Kurzbezeichnung „**MMG**“, als auch in lichtechem und formbeständigen Kunststoff (zum halben Gewicht) unter der Kurzbezeichnung „**MP**“.

Die lieferbaren Querschnitte können Sie aus den nachfolgenden Zeichnungen ersehen, ebenso die lieferbaren Größen und die ungefähren Innenhöhen dieser Gläser.

**Achtung:** Während Armbanduhrgläser in der Nummerierung grundsätzlich 10tel Millimeter verwenden, werden Weckergläser in vollen Millimetern klassifiziert, bestellt und geliefert.

STERNKREUZ supplies round glasses for alarm clocks, not only made of mineral glass under the abbreviation "**MMG**", but also made of plastics (half the weight) which is fast to light and which has a dimensional stability under the abbreviation "**MP**".

The available cross sections as well as the available sizes and the approx, internal heights of these glasses can be seen from the following drawings.

**Attention:** Whereas wrist watch glasses are always numbered in tenth millimetres, the glasses for alarm clocks are classified, ordered and supplied in full millimetres.

### Mineral Miconcave Großuhrgläser / Mineral Miconcave Glasses for Alarm Clocks

**MMG** 50- **MMG** 120 alle Nummern lieferbar / all numbers available

**MMG** 120- **MMG** 200 alle geraden Nr. lieferbar / all even numbers available

**MMG** 200- **MMG** 330 alle 5 Millimeter lieferbar / all 5 mm available

**MMG**

für gewölbte Gläser	60 mm	Wölbungshöhe	5- 6 mm
im Durchmesser bis:	70 mm	innen:	6- 7 mm
	90mm		7- 8 mm
for domed glasses in	100 mm	interior	8 - 9 mm
the diameter up to:	120 mm	doming height:	8,5-10 mm
	140 mm		10-11mm
	160 mm		11-12mm
	170 mm		12-13 mm

	167,5 mm		12,5 mm
	177,5 mm		13,0 mm
	187,5 mm		14,0 mm

# Marken- und Kaliberschlüssel

## Key to brands and calibres

Soweit uns die Uhrenmarken und Kaliber, für welche die Rundglas-Sonderformen passen, bekannt sind, haben wir diese bei den Gläserzeichnungen angegeben. Leider ist in vielen Fällen nur der Gehäusehersteller und nicht die Uhrenmarke bekannt. In dieser Liste finden Sie nach Marken zusammengefaßt die für diese Marken im Katalog enthaltenen Uhrgläser. Für Hinweise und Ergänzungen sind Großhandel und Hersteller jederzeit dankbar.

As far as we know the watches and calibres, to which our special forms round correspond, we indicated these next to the drawings of the glasses. Unfortunately in many cases only the case manufacturer and not the watch brand is known. In this list you will find the watch glasses for these brands as they are contained in the catalogue. Further references and supplements will always be appreciated by the wholesale trade and the manufacturer.

**Kopierschleifmaschine  
KRONOGLAS**

**Copying milling machine  
KRONOGLASS**

**Nr. 16**  
Kronoglas-  
Maschine mit Getriebemotor  
zum Schleifen von Mineralgläsern

Die Kopierschleifmaschine KRONOGLASS ist lieferbar unter der Best.-Nr. 16 mit Motor zum halbautomatischen Betrieb. Die Maschine wurde konstruiert zum Schleifen von Mineralgläsern aller Formen, die zusätzlich einen sauberen Kantenbruch auf beiden Seiten erhalten. Auch die harten Kunststoffscheiben MINEPLAN YPL können auf der Maschine geschliffen werden. Vor der Anfertigung eines Formglases muss eine Schablone angefertigt werden. Dazu wird eine Gießharzausrüstung mit

der Maschine geliefert. Die Standardausrüstung besteht aus der Maschine mit Wassertank und Umlaufpumpe für die Kühlung, einer Gießharzpackung K1 und K2 zur Anfertigung von Schablonen, einer Flasche Emulsion K3 für das Kühlwasser, einem Korundstein K5, 4 Schlüsseln und 60 Mineralglasplatten MPL sortiert.

**No. 16**  
Kronoglas-  
maschine with motor  
for grinding mineral glasses

The copying milling machine KRONOGLASS is available under the order No. 16 with motor for halfautomatic grinding. The machine is constructed for grinding mineral glasses of all shapes, which additionally get a bevel on both sides. The hard unbreakable watch glass plates MINEPLAN YPL can also be grinded on this machine. Before producing a fancy glass, a template has to be manufactured. A resin equipment is also delivered together with this machine.

The standard equipment contains the machine with tank and water circulation pump for the cooling, resin K1 and hardening liquid K2 for the manufacture of templates. A corundum stone K5, 4 keys and 60 assorted mineral glass plates MPL.

## QUICKPRESS

### Druckstücksatz für Einsprenggläser Set of chucks for tension fitting

#### No. 800

Setzwerkzeug höchster Präzision mit Doppelgewinde für schnelles, aber doch präzises Arbeiten, selbstzentrierend.

Bei Verwendung des Gewindetellersatzes Nr. 887 passen alle auf dem Markt befindlichen Fabrikate von Metalldruckstücken (Gewinde M6) zu der QUICKPRESS.

Fitting tool of highest precision with double screw thread for fast but precise working with self-alignment.

Using the set of supports no. 887 all brands of metal chucks available on the market fit with QUICKPRESS (thread M6).

#### No. 804

Bestehend aus Grundbrett, 25 Kunststoff-Druckstücken rund und 15 Kunststoff-Druckstücken form, 2 Metall- und 3 Gummi-Druckstücken für Einsprenggläser. (Grundbrett einzeln: Best.-Nr. 806, einzelne Druckstücke)

Consisting of penel, 25 round plastic chucks and 15 fancy plastic chucks, 2 metal and 3 rubber chucks for snap-in glasses. (penal separately: order no. 806, separate chucks)

## Basis - Fuß

#### No. 802

Für die beiden Grundbretter mit Druckstücken in den Zusammenstellungen 803 und 804.

For the two penals with chucks in the arrangements 803 and 804.

## Druckstücksatz für Mineral- und armierte Gläser Set of chucks for mineral- and armed glasses

#### No. 803

Bestehend aus Grundbrett, 3 Gewindetellern, 20 Messingdruckstücken von 16-35 mm  $\emptyset$ , 1/2 mm-weise gestuft und 3 flachen Kunststoff-Druckstücken für Mineralgläser (Grundbrett einzeln: Best.-Nr. 805, einzelne Druckstücke)

Consisting of penel, 3 supports, 20 metal chucks from 16 to 35 mm diameter, graded all 0,5 mm, and 3 flat plastic chucks for mineral glasses (penal separately: order no. 805, separate chucks)

## Quickbend

#### Nr. 380

Die praktische Zange für das Setzen von Einsprenggläsern, passend für alle Kunststoff- und Gummidruckstücke mit 10 mm Zapfen. Einfache Druckregulierung durch Rändelschraube und Gegenmutter.

The practical pliers for fitting of snap-in glasses, appropriate for all plastic and rubber chucks with 10 mm bases.

Easy pressure regulation by means of head screw and lock-nut.

## Quickex

#### No. 801

Der ergonomisch richtige Glasabzieher für alle allzu feststehenden Kunststoffuhrgläser.

The correct glass removing appliance for easy handling for all too tight fitted plastic watch glasses.

## Aufbauschränke

STERNKREUZ-Aufbauschränke schaffen Ordnung im Lager. STERNKREUZ-Aufbauschränke sind vorwiegend zur Aufbewahrung von Uhrgläsern vorgesehen und in ihren Abmessungen auf diese abgestimmt. Sie eignen sich aber auch für alle vorkommenden Uhrenfurnituren durch ihre vielfältigen Einteilungsmöglichkeiten.

## Storage cabinet

STERNKREUZ-storage cabinets facilitate the location of your stock. They are mainly used for the storage of watch glasses, and their dimensions are suitable for it. However, they can also be used for the storage of other spare parts because of their various possibilities of division

Lieferbar sind folgende Schränke:

- Nr. 112 Sockel
- Nr. 114 Deckel
- Nr. 100 Aufbauschränk, ohne Inhalt, mit Schlitten für die Facheinteilung Formgläser und/oder Rundgläser
- Nr. 130 Aufbauschränk für Rundgläser mit 5 Holztrennwänden und 50 Einsteckbrettchen
- Nr. 120 Aufbauschränk für Formgläser mit 7 Holztrennwänden und 70 Einsteckbrettchen
- Nr. 125 Aufbauschränk kombiniert für Rund- und Formgläser mit 6 Holztrennwänden und je 30 Einsteckbrettchen

Einzelteile:

- Nr. 123 Einsteckbrettchen für Formgläser
- Nr. 133 Einsteckbrettchen für Rundgläser
- Nr. 135 Holztrennwände, einzeln

The following cabinets are available:

- No. 112 Stand
- No. 114 Cover
- No. 100 Storage cabinet, empty, with slots for shaped and/or round watch glasses
- No. 130 Storage cabinet for round watch glasses, with 5 wooden separations and 50 trays
